	OFFICE OF LEGISLATIVE	COUNSEL			
	Friday - 8 December	1972			
25X1	Received a call from George Murphy, Joint Committee on Atomic Energy staff. He said Colonel Seymour Shwiller, of the Committee staff, had asked him to make a request to the Agency for a copy of NIE 11-14 on nonstrategic forces in Eurasia. I told Murphy that providing the staff with estimates other than those which had been authorized for release to the Committee by the Director on the recommendation of USIB pose a fairly complicated procedural question and I asked if there wasn't some way we could handle this on the basis of a briefing instead. Murphy called back later to say he had talked further with Colonel Shwiller who said he had been briefed on the subject matter involved and rather than to raise the issue on transmittal of the NIE he would cancel the request. I told Murphy if Shwiller should decide later on that he would like further information on the subject, to let us know.				
25X1	2. Hand-carried to .			٦	
25X1	Coldsmith had requested this during his recent trip to Southeast Asia and asked if we would thank our people in the field for making this available to him. He added that this would round out his file of information which hopefully it will be unneccessary to refer to if the present peace negotiations are successfully completed.
